

Our vision

Attain is the partnership of Merton schools, working together with a philosophy of continuous improvement to achieve the best outcomes for all of our pupils. Attain's vision is for Merton to be a place where every child and young person receives an excellent education, consistently enjoying a rich curriculum and memorable life experiences, with abundant opportunities to flourish through engagement in their personal development.

Our values

In working towards our vision, we hold true to the following principles:

- Everyone has an equal right to a high-quality education.
- All children and young people should be guided to grow into honest, kind and socially responsible citizens, regardless of their background or specific educational needs.
- Diversity and different learning pathways should always be supported and celebrated.
- Our schools should aim to prepare children and young people for their next life stage, whatever that may be.

Strong partnership working enhances every aspect of school life through sharing the highest ambitions and good practice among reflective professionals working alongside our children and young people, always prioritising:

- trust and common purpose as the foundation for effective collaboration;
- the sharing of best practice as a way of achieving high quality teaching and learning;
- development of school leaders who demonstrate integrity and commitment to the common good;
- the close nurturing of ambition within the wider school workforce towards their professional growth.

Attain is committed to maintaining fair representation of all schools within the partnership on The Board. Member schools and their staff will contribute to the planning and delivery of projects addressing mutually-agreed priorities.
